

Life Transforming Ministries

Bill Shaw, Executive Director

Ministry:

LTM is a growing, friendship-based collaboration of area Pastors and Christian leaders who believe that the Church is God's unique transforming agency in the world. We are continually asking, "what can Christian or churches do better together that we have been doing separately?" Our desire is to complete, not compete, so we are not in competition with any local church or para-church organization. It is our desire to serve every group in the area who believes with us that no solitary Christian, Church, denomination, mission agency or other organization can hope to complete the task of community revival and revitalization.

We seek to network the area Body of Christ so that strengths are shared, weaknesses minimized and equality in Christ exalted. We believe that the time is right for a new paradigm of doing church.
